SUPPLIES

empty Moccona jars,
assorted sizes

thin tape, decorative sticker
shapes, or a stencil mask

1 can frosted glass spray
paint

LED tea lights, or battery
operated fairy-lights

METHOD

1. Remove labels from empty Moccona jars.
Wash and dry jars well.
2. Apply a removable material – such as tape, or a stencil, to the outside of your jar. This area will remain clear.
3. Place jar on a large piece of cardboard or painting drop-sheet. Remember to do this outside, or in a well-ventilated area.
4. Spray jar with the frosted glass paint, per instructions on the can. Allow to dry, then apply a second coat if required. Once paint is set, carefully remove pattern-masking material.
5. Place an LED votive, or fairy-lights, into the jars to create a warm glow!
